

**PROGRAM**  
(preliminary)

I International Congress  
 «Rational use of antibiotics. **Antibiotic resistance STOP**»  
 15 – 16 november 2018, Kyiv, Ukraine  
 Chamber Plaza  
 Velyka Zhytomyrska street, 33

**15.11.2018**

8.00 – 9.00 Registration and morning coffee

**NOT PROMOTIONAL TIME, CME accreditation**

**GRAND HALL**

9.00 – 9.15	Congratulations, conditions of accreditation of the congress and participants	
<b>Moderator Igor Bereznyakov</b>		
9.15 – 9.30	Continuing Professional Development: putting continuing education to the benefit of the patient	Eugene Pozniak
9.30 – 9.45	WHO Position and Interdisciplinary Approach to Combat Antimicrobial Resistance	WHO
9.45 – 10.00	Sources and consequences of antibiotic contamination of food products	Kateryna Posokhova
10.00 – 10.20	Experience and achievements in combating antibiotic resistance in Britain	Philip Howard
10.20 – 10.35	Antimicrobial Stewardship Programme - how to implement	Magnus Grabe
10.35 – 11.45	Insight on antibiotic resistance in Ukraine	Serhii Dubrov
10.45 – 11.00	Optimal duration of antibacterial therapy	Igor Bereznyakov

11.00 – 11.30 Coffee break

**GRAND HALL**

**COLISEUM**

**Moderator Serhii Dubrov**

**Moderator Oleg Berestoyi**

11.30 12.00	Opportunities and standards of a modern clinical microbiological laboratory in Europe	Olena Demihovska	11.30 11.50	Practical problems of antibiotic therapy of sexually transmitted infections	Геннадій Мавров
12.00 12.20	Mixed infections in the ICU	Jakub Smiechowicz	11.50 12.10	Comprehensive approach in treatment and prevention of urological infections	Mykola Boiko
12.20 12.40	Intrahospital meningitis	Igor Karpov	12.10 12.40	Modern look at sepsis in urology	Magnus Grabe
12.40 13.00	Rational use of antibiotics under the pressure of resistance in pneumococcal meningitis	Hakan Erdem	12.40 13.00	All we need is not to prescribe antibiotics!	Oleg Berestoyi

13.00 – 14.00 Lunch Break

**PROMOTIONAL TIME**

<b>GRAND HALL</b>		<b>COLISEUM</b>		<b>CHAMBER MEDIA</b>		<b>DOVNAR HALL</b>	
14.00 16.00	lectures / satellites / master classes	lectures / satellites / master classes	lectures / satellites / master classes	lectures / satellites / master classes	lectures / satellites / master classes	lectures / satellites / master classes	lectures / satellites / master classes

16.00 - 16.30 Coffee break

**NOT PROMOTIONAL TIME, CME accreditation**

<b>GRAND HALL</b>			<b>COLISEUM</b>		
<b>Moderator Dmytro Havrylei</b>			<b>Moderator Oleksii Krykunov</b>		
16.30 16.50	Identification of microorganisms in 2 minutes. Experience of innovative ukrainian laboratory	Dmytro Havrylei	16.30 16.50	Prevention and treatment of infectious complications in general surgical practice	Andrii Mazur
16.50 17.10	Growth of resistance of pathogens of nosocomial infections in intensive care units of Ukraine. The reason and approaches to solve the problem	Serhii Dubrov	16.50 17.10	Experience in treating septic complications caused by antibiotic resistant strains in cardiac surgery	Oleksii Krykunov
17.10 17.30	New possibilities of antibiotic therapy in the formation of biofilms	Nina Vrynchanu	17.10 17.30	Rational antibacterial therapy for abdominal sepsis	Igor Kryvoruchko

17.30 Completion of the first day of the Congress

20.00 - 23.00 Dinner and evening reception

( by pre-registration )

16.11.2018

8.00 – 9.00 Morning coffee

**NOT PROMOTIONAL TIME, CME accreditation**

GRAND HALL			COLISEUM		
Moderator Irina Mazur			Moderator Olena Demihovska		
9.00 9.30	Comparing influence on the microbiome: phytotherapy vs antibiotics	André Gessner	9.00 9.40	<b>Master class:</b> Methods of determining the sensitivity to antibiotics by EUCAST standards (European Committee on Antimicrobial Susceptibility Testing)	Olena Demihovska
9.30 9.50	Microbial biofilm of the oral cavity and systemic diseases: interdisciplinary approach to overcoming the formation of antimicrobial resistance	Irina Mazur	9.40 10.20	<b>Master class:</b> Application of the pharmacokinetic / pharmacodynamic model for calculating the antibiotic administration regimen	Mykola Khaitovych
9.50 10.10	Acute rhinosinusitis: 5 steps to prevent antibiotic resistance	Vasyl Popovych	10.20 11.00	<b>Master class:</b> Urinary tract infections: modern management strategy	Magnus Grabe
10.10 10.35		expected			
10.35 11.00		expected			

11.00 - 11.30 Coffee break

GRAND HALL			COLISEUM		
Moderator Igor Karpov			Moderator Maryna Mamenko		
11.30 11.50	Infectious and tropical diseases: current situation and challenges	Rostyslav Marushko	11.30 12.00	Prevention and treatment of bacterial infections in newborns - modern approaches	Yelyzaveta Shunko
11.50 12.20		expected	12.00 12.20	Antibiotic treatment of children with sepsis and septic shock	Marzena Zielinska
12.20 12.40	Clostridia Difitsile	Igor Karpov	12.20 12.40	Vaccination as a method in preventing of the development of antibacterial resistance	Rostyslav Marushko
12.40 13.00	Probiotics and antibiotic resistance	Vladyslav Bereznyakov	12.40 13.00	Antibiotics in pediatrics: rational tactics based on international recommendations	Maryna Mamenko

13.00 – 14.00 Lunch Break

**PROMOTIONAL TIME**

	<b>GRAND HALL</b>	<b>COLISEUM</b>	<b>CHAMBER MEDIA</b>	<b>DOVNAR HALL</b>
14.00 16.00	lectures / satellites / master classes	lectures / satellites / master classes	lectures / satellites / master classes	lectures / satellites / master classes

16.00 -16.30 Coffee break

**NOT PROMOTIONAL TIME, CME accreditation**

<b>GRAND HALL</b>			<b>COLISEUM</b>		
<b>Moderator Ganna Zaychenko</b>			<b>Moderator</b>		
16.30 16.50	Rational antibacterial therapy of sepsis in patients at risk	Leonid Kharchenko	16.30 16.45	Participation of young scientist	
16.50 17.10	Features of antibacterial therapy in patients with diabetes mellitus with critical ischemia of lower extremities vessels	Yuliia Ivanova	16.45 17.00	Participation of young scientist	
			17.00 17.15	Participation of young scientist	
17.10 17.30	Immunotropic action of antibiotics. Allergy to medicines and antibiotics	Sergii Zaikov	17.15 17.30	Participation of young scientist	
			17.30 17.45	Participation of young scientist	
17.30 17.45	Innovative approaches to the development of new antibiotics as a possible way to overcome antibiotic resistance	Ganna Zaychenko	17.45 18.00	Participation of young scientist	
17.45 18.00	Is there a future in antibiotic prophylaxis?	Igor Bereznyakov			

18.00 - 19.00

**The end of the congress**
